Cutting edge air compressors for FPSO/FLNG installation

- Unmatched single stage oil lubricated compressors with capacity up to 70 m³/min.
- Complete program of filtration and air dryers for compressed air systems to ensure supreme air quality.
- TMC cover all your needs for air supply to instrument, utility, service and nitrogen systems.

TMC Air compressor range

TMC 7-27

WxHxD: 993 x 1256 x 728
Capacity: (m3/h) 37-234

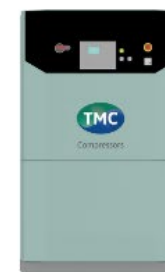

TMC 35-44

WxHxD: 701 x 1700 x 1006
Capacity: (m3/h) 209-376

TMC 49-84

WxHxD: 1017 x 1752 x 1907
Capacity: (m3/h) 402-760

TMC 86-124

WxHxD: 1158 x 1829 x 2201
Capacity: (m3/h) 523-1232

TMC 150-235

WxHxD: 990 x 1900 x 3000
Capacity: (m3/h) 870-1788

TMC 245-360

WxHxD: 1365 x 2165 x 3368
Capacity: (m3/h) 1308-3102

TMC 400-450

WxHxD: 1384 x 2170 x 3900
Capacity: (m3/h) 2424-4156

SMART AIR

Available in all series

Setting the standard in Compressed Air Systems for FPSO and FLNG

- Built on well proven technology and a strong track record
- Unparalleled reliability and safety
- Made to last the lifetime of the FPSO – FLNG
- Aligned with the customers technical demands
- Professional offshore documentation

CERTIFICATIONS AND QUALITY

TMC is certified according to the quality standard ISO 9001, the environmental standard ISO 14001 and HSE standard ISO 45001.

TMC marine products are certified by all of the marine classification societies. They're also widely recognized for their reliability, ease of operation and service, and the fact that the equipment is made to last the lifetime of the vessel.

More than 70 FPSO/ FLNG compressed air systems delivered

- TMC, a partner who understands the ins and outs of the offshore industry.
- Our experience and reputation have made us the preferred supplier to the FPSO – FLNG market.
- Large loyal customers base

Thank you!

Always at your service

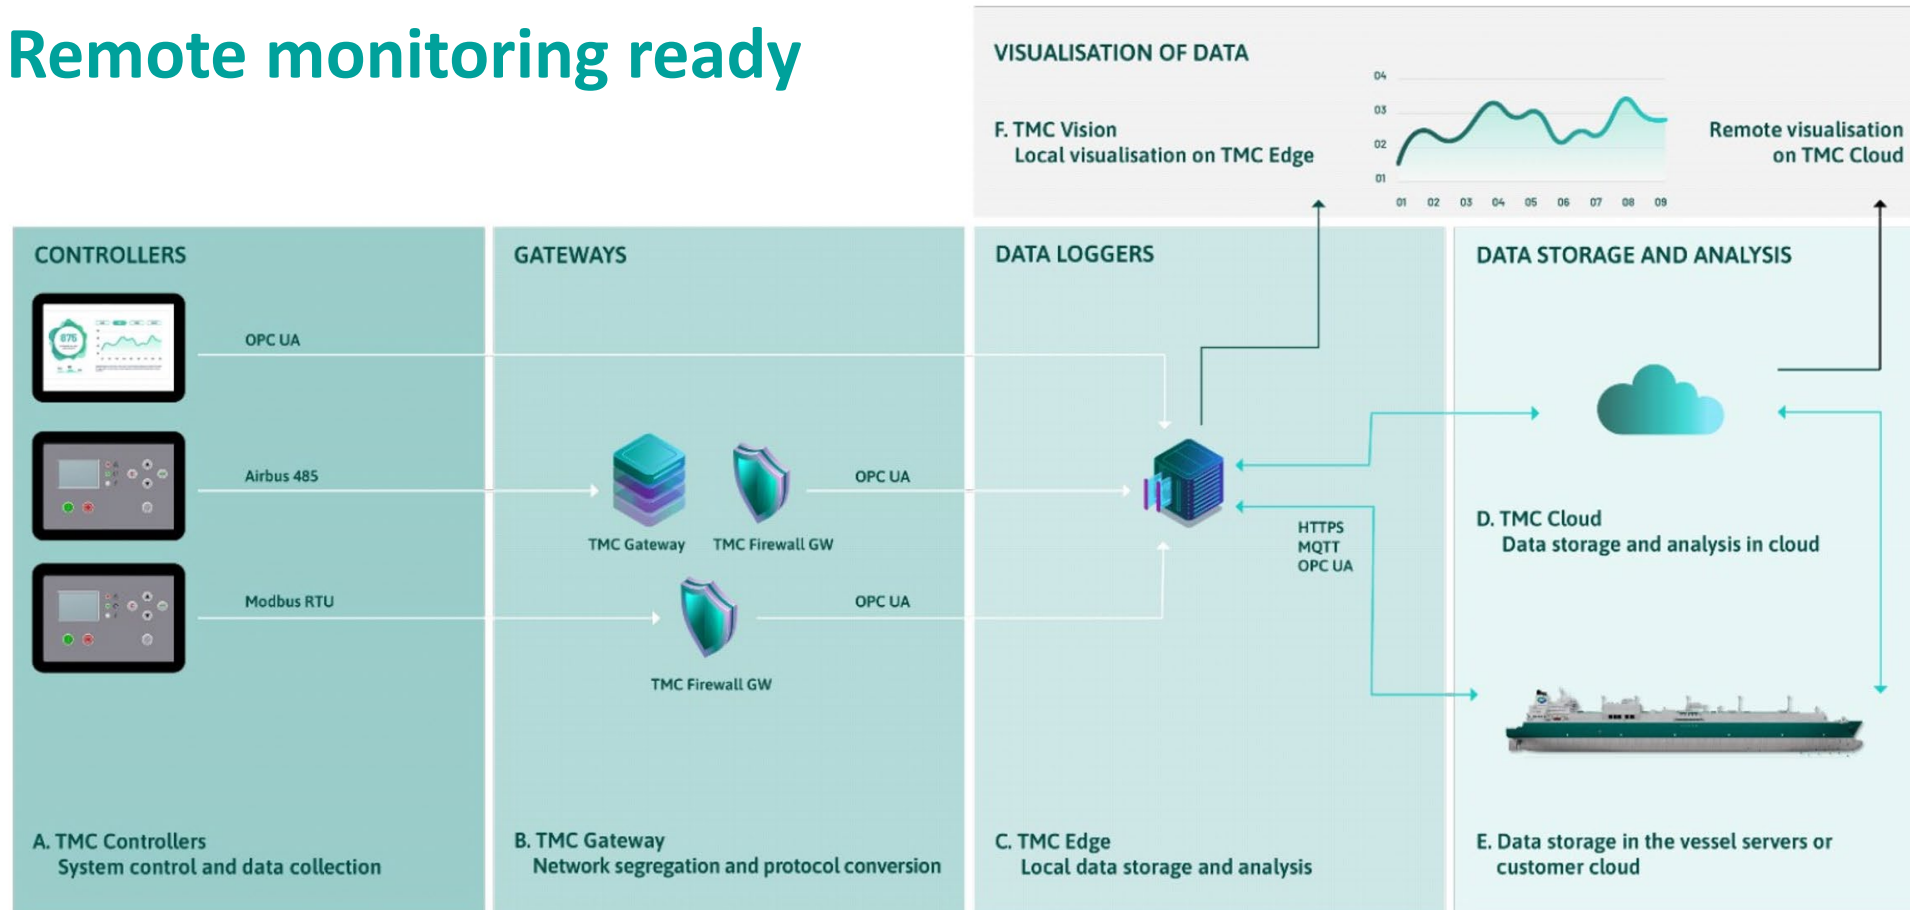

- Simplify maintenance planning and logistics by TMC's renowned service and aftersales concept
- All parts available when you need them in our tailor made Spare part kits
- Normal maintenance to be performed by the ship's crew
- TMC service support 24/7 – remote or on-site assistance
- Spare parts delivered within 48 hours - worldwide

When downtime isn't an option

Remote monitoring ready

An aerial photograph showing a large red FPSO (Floating Production Storage and Offloading) vessel docked at a port. The ship has a prominent yellow derrick. To the right of the ship, several large red gantry cranes are visible on the pier. The background shows a body of water and industrial facilities with storage tanks.

If your FPSO can take it,
your TMC compressor
can too
